

Dual Enrollment Request Form

Date this form was completed:

Dual Degrees are two degrees that are earned simultaneously when a student is accepted by both department/programs and is approved by the appropriate academic deans and the Dean of the Graduate School (or designee). A student must be admitted to one academic program initially, and after the first semester, may apply and be accepted to the second-degree program. **There is no formal relationship, overlap of credit hours, or sharing of credit hours between the two degree program requirements in a dual degree situation.** This form needs to be submitted at the correct time to ensure timely and effective advisement, prior to the graduate student completing **12 credit hours** in the second degree program and before the student has reached the final semester and applied for graduation so there are no delays in graduation clearance.

*A unit must be offering a master's degree in-flight (en route) to a doctoral student from a major/plan that is active and available within the same doctoral major/plan being pursued. **The master's degree in-flight (en route) must be under the same degree program as the doctoral program.** If not, a Dual Enrollment Request Form must be submitted to The Graduate School for review.

See the [Graduate Bulletin](#) (Graduate Degree and Certificate Requirements Section) for additional information regarding Dual Degrees or Master's Degrees In-Flight (en route) to Completing a the Doctoral Degree.

To help facilitate the process, the following information must accompany each completed form. If a Dual Enrollment Request Form is submitted without the information below, then it will be returned to the respective unit.

1. A copy of the graduate student's FSU unofficial transcript.
2. A statement from the student explaining the justification and basis of the dual enrollment request.
3. If a Dual Degree, confirmation should be noted that the enrollment request was submitted prior to the completion of 12 credit hours in the second degree program. A program of study from both programs should be attached outlining the requirements that are needing to be met. A timeline for completion should accompany the program of study which clearly shows the progression and notes an expected semester/term of graduation.
